

Ontology Summit 2013 Launch

ONTOLOG Opening Remarks

January 17, 2013

Leo Obrst
Peter Yim

Ontolog and Ontology Evaluation

- Since its founding in April, 2002, Ontolog has strongly promoted community-based open standards, best practices, and sound ontological science and engineering
- Well-designed, requirements-driven, principle-based ontologies are essential to the adoption of ontological technology
- Ontology Evaluation is crucial to improving ontology quality
- Ontolog trusts that Ontology Summit 2013 will enable the adoption of better methods and metrics to evaluate Ontologies
- Thus greatly improving ontology development, deployment, and reuse in information technology
