

Ontology Summit 2013
Track B
Lifecycle – ‘Trinsics’
Game

Terry Longstreth
Todd Schneider

28 February 2013

Lifecycle Phases – 2 Views

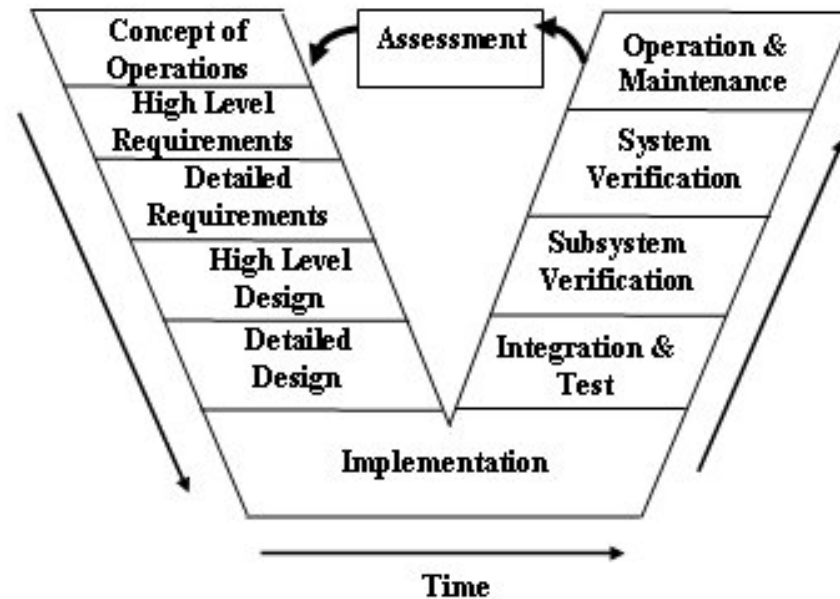

'Trinsics' ala Leo

- **Intrinsic** - Little or no domain knowledge needed
- **'Tweens'** - Some domain knowledge and exploration of the ontology
- **Extrinsic** - Ontology is black box to external requirements and interactions

Lifecycle vs. 'Trinsics'?

- **When** might a 'trinsic' be applied?
- **How much** of a 'trinsic' should be applied?
- **How many** 'trinsics' should be applied?

The Game
