

Elements of usage are organized (or faceted) differently in several presentations (tools, methods) from this year's summit. It is a goal to add these ways of understanding and organizing usage characteristics and incorporate this multi-facetedness into the overall model.

Many of these faceting (or dimensional) concepts for Usage elements are drawn from work done in the 2011 Summit: ref: http://ontolog.cim3.net/cgi-bin/wiki.pl?OntologySummit2011_ApplicationFramework_Synthesis
