

Examples of Rules and Reasoning

Kenneth Baclawski

College of Computer and Information Science
Northeastern University

- Rules and reasoning occur in many contexts in industry and government
 - What are examples of successful and unsuccessful uses of rules and reasoning?
 - What can one learn about them?
 - Are there cross-industry best practices?
- Examples where rules and inference are used.
 - Databases have constraints and triggers.
 - Many programming languages have type inference.
 - Business rule engines
 - Situation awareness in military and medical settings
 - Military rules of engagement
