The screenshot shows a Semantic Web application interface. On the left, there's a sidebar with a search bar, a 'Knowledge Bases' section listing 'Conference Model', 'BIS Lehrstuhl Knowledge Base', 'ISWC / ASWC 2007', and 'OpenCourseWareOntology', and a 'Languages (Tagged Literals)' section with 'de', 'en', 'es', and 'none'. The main area is titled 'owl:Class > Wissenschaftlicher Mitarbeiter' and shows a list of instances: 1. Jens Lehmann, 2. Muhammad Ahtisham Aslam, and 4. Sören Auer. Each instance has a thumbnail, a name, and a brief description. A context menu is open over the second instance, showing options like 'Create Instance', 'Create New SubClass', 'View Class Description', 'Edit Class Description', and 'Delete Class Description'. To the right, there's a sidebar for 'swrc:AcademicStaff' with properties like 'rdfs:label', 'rdfs:subClassOf', 'owl:disjointWith', and 'owl:disjointWith'. At the bottom, there's a 'Filter' section and a 'Combine Filters (Conjunction)' checkbox.
